Honolulu, HI 96816

*Standard error is not defined for groups of one student.

The Summative Assessments include both computerized scoring components (scored immediately) and hand-scoring components. The reporting system aggregates results in real-time. Performance data will display as students complete both scored components and the hand-scoring portion results have been received.

Data presented in this system are considered preliminary. Official accountability data will be available after the testing window has closed and hand scoring portion results for all students have been received.

There is some uncertainty in all test scores. If these students took the test multiple times, their average score would lie within the range indicated next to the average scale score 68% of the time.
