Aloha Wheeler Humanities Folks!

Chloe and I have finished the bones of our department agenda for our meeting on December 2 (a little ahead but want to make sure everyone is comfortably prepared!). We want to look at revisiting grade breakdowns and looking at average performance across grade levels in each class section. You can check out our department meeting schedule [here](#) to start seeing what we're looking at, **but please do not fill out the survey until December 1-2** so that we can have data on class averages that are slightly more accurate. That being said, please try to have as much of your grading done by that point so that it is more consistent grade-wide. We'll let you know if much more changes, but that's just a heads up on what's to come!

Mahalo!
